Sequential Analysis with O'Brien–Fleming Boundaries
Continuation region
OBF upper boundary
OBF lower boundary
Interim 2 (main run)
z = −2.447, p = 0.015
H1 supported
Interim 1 (pilot)
t = −1.63, p = 0.10
(continue)
Pre-registered stopping rule: boundary crossing at interim 2 governs the H1 decision.
